# Finalists announced in European IT and Software Excellence Awards 2016

- **86 companies from 21 countries represented amongst the finalists**

*[London, 26 February 2016]* The finalists for the **European IT & Software Excellence Awards 2016 ([www.iteawards.com](http://www.iteawards.com))** - the leading pan-European awards for ISVs, Solution Providers and Systems Integrators and their vendor and distributor partners – were announced today by *IT Europa*. A total of 86 companies from 21 European countries have made the finals. The winners will be announced at the **European IT & Software Excellence 2016 Awards Dinner** at the Lancaster London Hotel, on 14th April 2016.

Now in their 8th year, this year's European IT & Software Excellence Awards attracted over 400 entries from more than 31 countries. The awards are given for IT solutions that get to the heart of customer issues, delivering better business, a clearer understanding of data, and more efficient and profitable outcomes. The judges, with many decades of experience of IT industry involvement between them, have arrived at a list of finalists that they believe truly reflects both the strength of Europe's IT industry and some of the changes in the direction occurring within it.

John Garratt, Editor of IT Europa, who heads the judges' panel says: "This year has seen more entries than ever, and an even wider spread of project types – from mobility, security and management to software-as-a-service packages for key vertical markets, and from data-driven systems using the new power of analytics to others which effectively replace costly old systems with new and far more efficient apps, increasingly driven in the cloud. The result is the best-ever advertisement for the capabilities of European IT, and we could not help but be impressed by the skills on display and the effort that has gone into effective IT delivery."

The award winners will be announced on April 14 at a gala dinner and awards ceremony following the day-long European Software and Solutions Summit 2016 ([www.eusss.com](http://www.eusss.com) ) where director-level representatives of leading ISVs and Solution Providers will meet with hardware, software and service organisations to discuss some of the changes impacting the sector and to develop business relationships.

**The finalists:**
**Solution Provider categories**

<u>SME Solution of the Year</u>
Lanteria

123 Insight Limited

JETCAM international s.a.rl.

The NAV People

Schnell Solution Limited

Hardware Group

Utilize Plc

Enterprise Solution of the Year

Onyx Group

Würth Industrie Service GmbH & Co. KG

Green Fields Technology

ShoreTel

EMC

The **European IT & Software Excellence Awards** are the only pan-European awards which recognise the crucial role that ISVs, Solution Providers and Systems Integrators play in the delivery of real world solutions. Entries were submitted by the ISVs, Solution Providers and Systems Integrators themselves describing the solution provided. Each entry had to be supported by an endorsement by the client. The Awards dinner is co-located with the European Software & Solutions Summit 2016 (www.eusss.com ) which incorporates the European ISV Convention 2016 (www.isvconvention.com ) which will be staged during the day on 14 April 2016.

**About IT Europa**

IT Europa is the leading provider of strategic business intelligence, news and analysis on the European IT marketplace and the primary channels that serve it. In addition to its news services, the company markets a range of database reports and organises European conferences and events for the IT and Telecoms sectors.
